About us

About us

Enterprise introduction

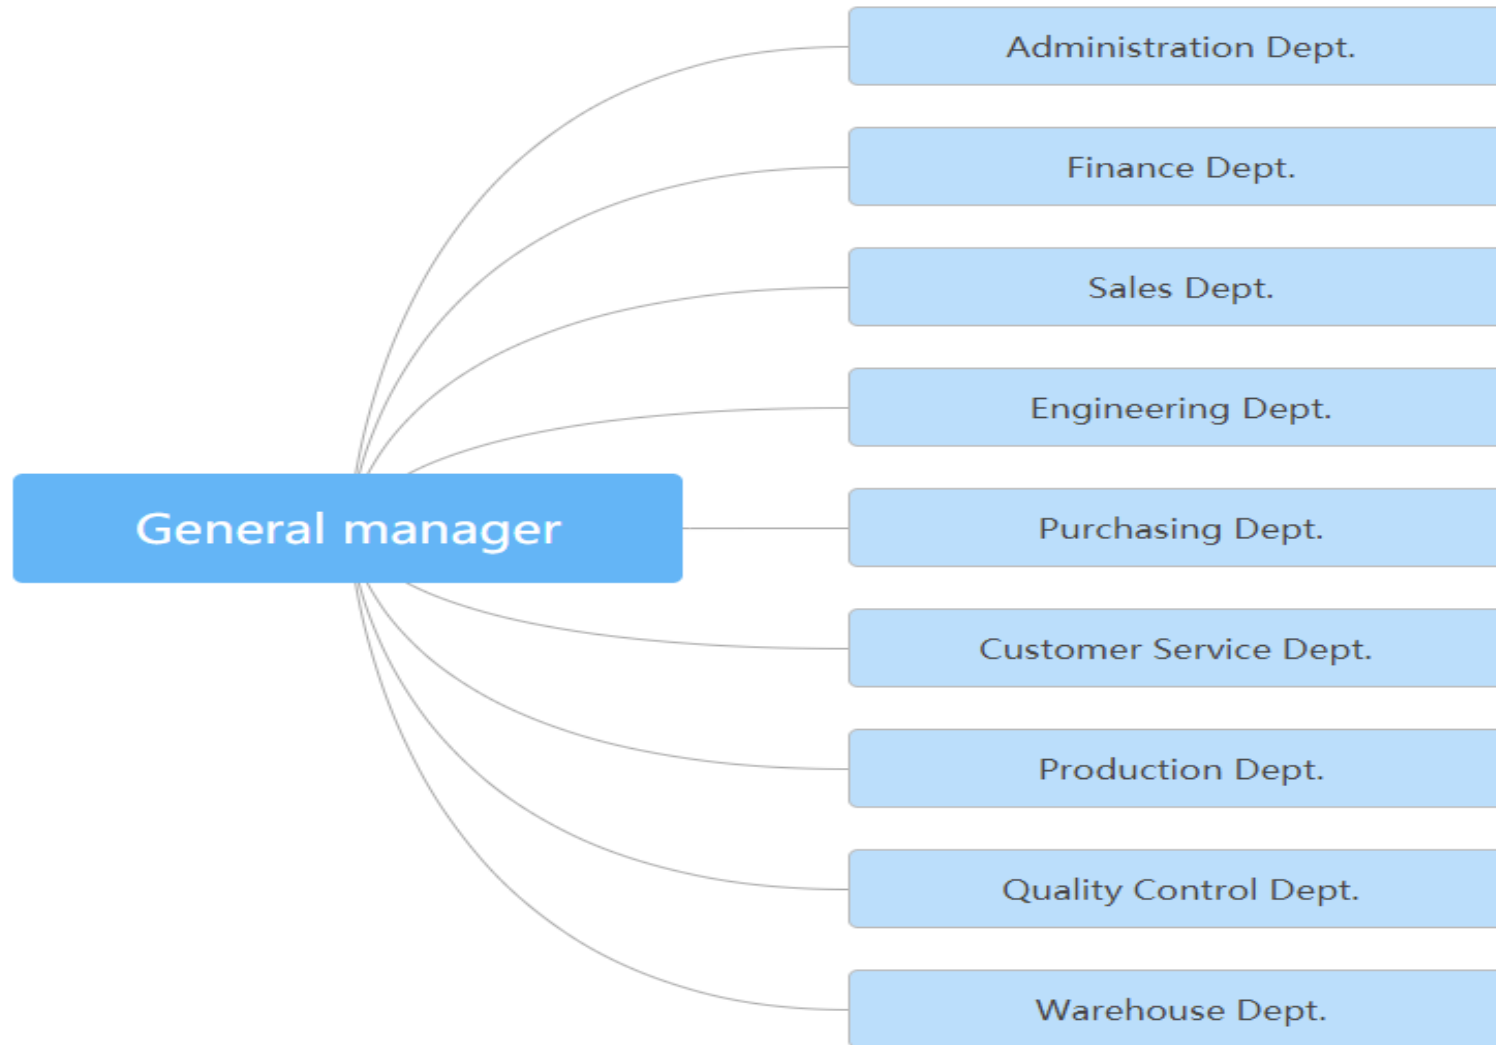

Guangzhou Kuqi Technology Co., Ltd. was established with investment from Hong Kong Shimizu Sumisei Electric (International). It is a manufacturer specializing in wire harness R&D, production, sales and service. Our products are widely used in automobiles, public transportation, agricultural/engineering machinery, home appliances, medical, electronics, electrical, high-speed rail, automation and military industries.

The company has always adhered to the management philosophy of "quality is the life of an enterprise, efficiency is the soul of an enterprise", and has maintained long-term and good cooperative relationships with connector manufacturers such as TE, KET, YAZAKI, SUMITOMO, MOLEX, DELPHI, and FCI. In addition, we can provide customers with customized services and mold development.

The company has a professional, efficient and rigorous team. With high stable quality and excellent service, our products are exported to 23 countries and regions, such as Russia, the United States, Canada, Brazil, Sweden, Germany, Italy, Colombia, etc.

Facing today's global economy, we will work hand in hand with our customers to create a better future with a positive working attitude of innovation, pragmatism and excellence.

Factory List

About us

Factory List>>Production Equipment

Fully automatic double-head terminal machine

Fully automatic double-head tin dipping machine

Automatic flat cable crimping machine

Injection molding machine

Automatic wrapping machine

Ultrasonic welding machine

Cutting and stripping machine

Pneumatic double layer stripping Machine

Six-group swing testing machine

Constant temperature and humidity testing machine

Precision Salt Spray Tester

Plastic Vertical Horizontal Burner

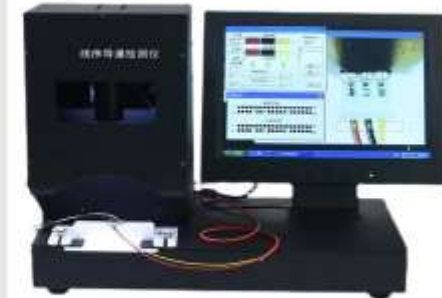

Pull-off testing machine

Precision Wire Connector Testing Machine

Terminal Stripping Analyzer

Line Sequence Continuity Tester
